

sigwinch

```
graph LR; A[sigwinch] --> B[rl_resize_terminal]
```

A diagram showing a call from the `sigwinch` function to the `rl_resize_terminal` function. The `sigwinch` function is represented by a gray rectangular box on the left, and the `rl_resize_terminal` function is represented by a white rectangular box on the right. A blue arrow points from the right side of the `sigwinch` box to the left side of the `rl_resize_terminal` box, indicating the direction of the call.
